

JOB OFFER / PARIS, FRANCE INTEGRATION ENGINEER TACTILE INTERFACE

1 OUR MISSION

We believe in a future where nature and technology could blend, to address the next technological outcomes.

Woodoo is specialized in a groundbreaking material based on the structural transformation of wood at the molecular level. Translucent, tactile and renewable, we are inventing the future of tangible interfaces for the mobility industry and consumer tech. Woodoo has won more than 30 major international and national awards, such as MIT 35 Under 35 European Innovator of the Year, Horizon H2020 from the European Commission, as well as supported by the French Ministry of Agriculture, Environment, Research & Innovation.

2 JOB DESCRIPTION

Our R&D team is seeking a phenomenal integration engineer with skills in touch sensitive interfaces and haptic integration.

- As an Integration Engineer based in Paris, you will have responsibilities spanning all aspects of tangible interfaces for new products concepts and prototypes, working with multi-functional teams and suppliers to deliver high quality results
- Taking a different approach in fusing new ideas together that extends to other teams and specialties, you will work at the forefront of the tech ecosystem in Europe on pioneering technology with premium clients in the automotive industry and consumer electronics

3 YOUR QUALIFICATIONS

You are an exceptional BS or MS with relevant academic or industrial experiences.

You are creative and an expert in your field with a pioneering spirit:

- 2+ years experience in the consumer electronics industry, preferably in portable electronic devices
- experience with latest technology of tactile screen integration
- ability to prototype new solutions for tangible interfaces
- electronics, structural resonance, vibration and haptic feedback
- experience with methods for perceptual and subjective screen quality evaluation
- attention to detail in problem solving and troubleshooting new issues
- autonomy, self-motivation, ability to take challenges, excellent communication skills in working with a group of people

4 FEELING LIKE JOINING OUR TEAM?
